As the Activity Director, I verify that all information contained in this application and its attachments are accurate and complete and the planning process and educational content are free of commercial influence and/or bias. I further commit to abiding by all Michigan State University College of Human Medicine's Continuing Medical Education Office Policies & Procedures and the standards of the Accreditation Council for Continuing Medical Education (ACCME).

As the Activity Director, I understand it is my responsibility to validate the clinical content of the activity. I hereby verify the activity described in this application complies with the following two ACCME requirements:

1. All the recommendations involving clinical medicine in a CME activity must be based on evidence that is accepted within the profession of medicine as adequate justification for their indications and contraindications in the care of patients.
2. All scientific research referred to, reported or used in CME in support or justification of a patient care recommendation must conform to the generally accepted standards of experimental design, data collection and analysis.
