

CONTENT VALIDATION CRITERION 10

St. Joseph Mercy Hospital CME Program
Ann Arbor, Michigan

Our Process

- **Disclosures**-all individuals **complete attestations** to comply with ACCME policy on content validation
 - Balanced view of therapeutic options
 - Conform to generally accepted standards of experimental design, data collection and analysis
 - All presenters with positive disclosure-slides reviewed for content validation
 - All MOC presentations are validated by 2 two reviewers
- **Activity Directors** (typically clinical)
 - New or novel approach to patient care topics are identified
 - Increased vigilance to review the content for validity

SPEAKER COMPLIANCE GUIDELINES

It is our policy that faculty not accept any payments or reimbursements from any commercial interest for giving presentations at continuing medical education activities sponsored by St. Joseph Mercy Ann Arbor, Livingston, and Chelsea.

Your Audience:

Purpose and objectives should be clearly defined.

Content Validation:

St. Joseph Mercy Ann Arbor, Livingston, and Chelsea expects that all of its CME programs will adhere to the ACCME's content validation value statement. Specifically, all the recommendations involving clinical medicine in a CME activity must be based on evidence that is accepted within the profession of medicine as adequate justification for their indications and contraindications in the care of patients. All scientific research referred to, reported or used in CME in support or justification of a patient care recommendation must conform to the generally accepted standards of experimental design, data collection and analysis. Please contact the CME Office if you do not feel your presentation can meet these standards.
